

Floor Care Equipment

**When your floors need
cleaning, it's twine time.**

Routine cleaning practices are vital to maintaining spotless, sanitary floors. Mats, mops, and brooms are a great first line of defense but periodic deep cleanings with the right floor care equipment are what keep floors looking and feeling immaculate around the clock.

Using the right equipment and procedures not only provides better results, but it also decreases cleaning time and increases productivity. Plus, meticulously clean floors are what help reduce on-the-job slip and fall hazards.

Soft Floor Care

Suction Up Pesky Visitors.

Dirt, debris, and insects can make their way into your carpet fibers. Vacuuming every day keeps these unwanted substances away. Regular deep cleanings using floor machines offer additional protection for carpet and other soft floor surfaces.

Vacuum

Used to quickly pick up dirt and debris.

Carpet Spotter

Used to extract dirt or stains from upholstery and carpeting.

Carpet Extractor

Use to deep clean areas small to large to keep carpet looking its best and eliminate soil buildup.

The Best Machine For Your Floors

Our team of floor care experts knows which machines work best on various floor types. We can help you find the right floor cleaning equipment and supplies, as well as train your staff on proper floor care practices.

Hard Floor Care

A Deep Clean Requires A Master Machine.

When mats and mops aren't enough to produce a safe, pristine clean, it's time to take floor cleaning to the next level. Floor machines provide the most thorough clean for all types of hard floors, including tile, vinyl/VCT, laminate, stone/marble/concrete, terrazzo, ceramic, and linoleum.

Scrubber

Uses a cleaning solution and scrubbing motion to lift residual soils off of flooring.

Burnisher

Polishes floors to achieve a high-gloss shine.

Low Speed Machine (Buffer)

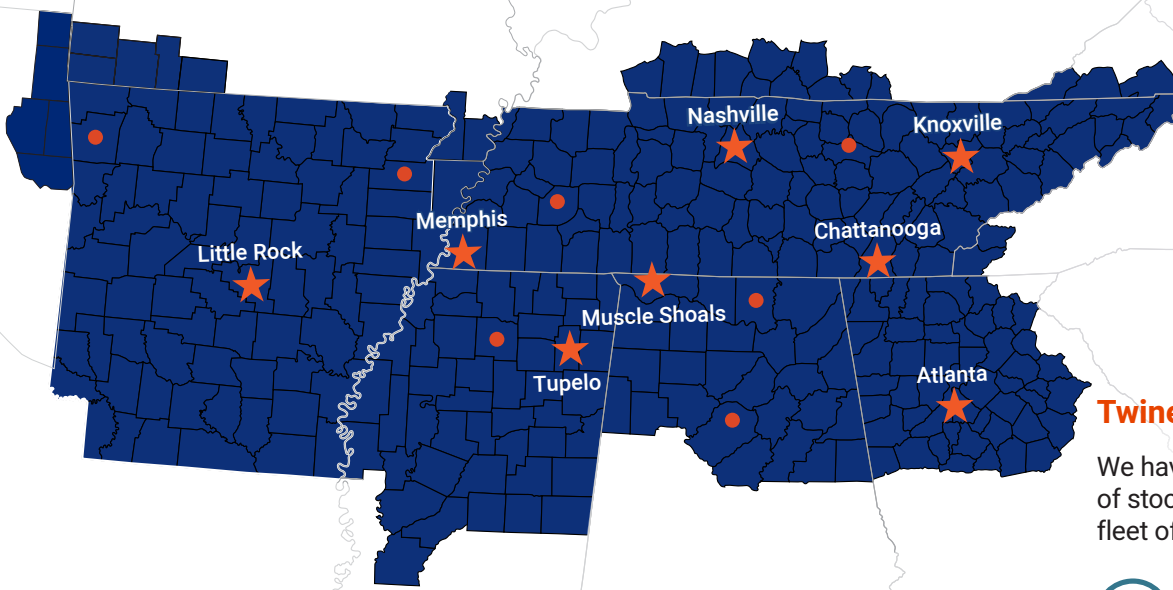

Used to strip the finish off and buff, clean, or scrub floors.

Remarkable Products, Remarkable Service
