

SimplifillTM

Dispensing Made Simple[®]

A Division of ImperialDade

Accurate

Accurate Dilutions, Every Time

With Simplifill, the uncertainties associated with dispensers and hand pouring are eliminated. By design, the integrated dilution mechanism restricts the possibility of under- or over-diluting the concentrate. Simplifill simply and safely delivers accurate dilutions every time, ensuring proper product performance, cost control, and efficacy.

Integrated fixed dilution goes a long way in helping to control your costs, not only ensuring that concentrates aren't hand-poured, but also areas won't need to be re-cleaned due to improper product dilution, saving valuable labor hours and time. And when your cleaning solutions all work as intended, the results speak for themselves — satisfied building occupants and a healthier, safer cleaning environment for your employees.

Easy to Operate

Attach - Dispense - Clean

While training has always been the cornerstone of safe and productive cleaning, there is something to be said for the time and money saved when a product virtually eliminates the need for any training. Simplifill doesn't require complex instructions or any special skills to operate — just ATTACH, DISPENSE and CLEAN. And color-coded labels take the guesswork out of dispensing and keep you compliant with OSHA-regulated workplace safety practices.

From your long-time employees to someone working their very first shift, accurate dilution and safe chemical dispensing is always guaranteed with Simplifill. Saving time and cutting labor costs associated with training, Simplifill promotes instant productivity. It's that simple.

Compact & Portable

Great for Route Work

Designed with durability and portability in mind, Simplifill delivers an ideal solution for route work. No mounted dispenser is required so you can take it with you floor to floor, building to building — wherever you have a water source. With Simplifill, you can have perfectly dispensed product solutions.

The integrated dispensing capability solves for two common problems. First, not every facility has a janitorial closet. Second, installing dispensing equipment often delays the startup of a new cleaning program. With Simplifill, that's not a problem. Its portability means facilities aren't required to have custodial closet for chemical storage. With Simplifill, no dispenser is required. Simply ATTACH, DISPENSE and CLEAN!

Dispensing

Spray bottle: Attach a water source to the Simplifill quick-connect attachment. Turn on water. Press down on the trigger to dispense product.

Bucket or auto scrubber tank: Attach a water source to the Simplifill quick-connect attachment. Turn on water. Press down on the trigger and slide the lock to continuously dispense product.

Tamper-Proof Design

Safe by design, Simplifill has been engineered to be tamper proof. Dispensing is done directly from the integrated Simplifill dilution control — reducing the risk of chemical exposure for a safer cleaning environment.

Simplifill Quick-Connect Kit
APT# 770587 MFG# 99191

The Simplifill™ integrated dispensing system is offered with these high-quality Spartan Chemical products you know and trust.

BioRenewables® Glass Cleaner 2/CS

APT # 770531

Biobased and designed to clean mirrors, glass, and plexiglass surfaces. Use on window glass, panes and sills, mirrors, countertops, chrome, automobile glass, fluorescent lights and tubing. BioRenewables Glass Cleaner removes tough soils such as grease, smoke, oils, tape residue, food stains, dust, and dirt.

pH: 8.0-9.0
Dilution: 2oz/gal
Scent: waterfall

MFG# 383522

Clean by 4D® 2/CS

APT # 770532

A healthcare disinfectant that delivers effective performance and provides a restorative clean. Use Clean by 4D daily as part of a simple and effective cleaning and disinfection program for your entire facility. With a fantastic fresh scent, Clean by 4D leaves the room clean and disinfected!

pH: 4.0-6.0
Dilution: 2oz/gal
Scent: light/fresh
EPA reg.: 5741-30

MFG# 101122

Clean by Peroxy® 2/CS
